## The Program

### Developmentally Appropriate Activities

This center was set up with the needs of infants through preschoolers in mind. The activities that are provided facilitate the child's social emotional, intellectual and physical growth.

**Work Time** is a time when the children can express themselves in a variety of ways and learn to work with others. During this time the science, art, math, dramatic play, language arts, block and book area are available to children.

**Circle Time** is a group activity which exposes the child to experience in literature and language arts, as well as music.

**Large Motor Play** provides a time for the child to develop large muscle coordination through a variety of game and activities.

**Small Group** is a teacher lead activity focusing on science, math, language arts, social studies and art. Often short field trips around campus are taken.

# The Purpose

The Ohio Hi-Point Early Childhood Education Program serves two main purposes.

The primary purpose of the center is to serve as a training station for child care assistants. The child care assistants must develop skills in working with children and an understanding of the social, emotional, intellectual and physical development of children. The secondary purpose of the school is to provide a valuable experience for the children. The children will be exposed to activities and experiences which are often difficult to offer at home. The Early Childhood Education Center does not replace the home experiences of the child, it supplements them. The Early Childhood Education staff believes that child care should provide opportunities and experiences which stimulate a child's physical, social, intellectual and emotional development.

The Ohio Hi-Point Early Childhood Education Center provides childcare to infants, toddlers and pre-schoolers. Day-care is available Monday through Friday to ten infants and toddlers from 6 weeks of age to under 36 months, and 24 preschoolers from the 3-5 years of age.

Pre-school is available Tuesday through Friday to children 3 years of age to 5 years of age. The Early Childhood Center is an Ohio Department of Education licensed center which provides experiences that stimulate a child's physical, social, intellectual, and emotional development.

## Goals and Objectives for:

### "Infants, Toddlers and Preschoolers"

1. Help the child to develop a good self image.
2. Encourage the child to explore his/her environment.
3. Give the child stepping stones toward reaching their potential.
4. Provide opportunities for the children to develop their whole body through:
  - First hand experience in social relationships.
  - Physical development of large and small muscles.
  - Stimulating experiences which encourage the child to think, analyze problems and arrive at possible solutions.
5. Encourage the child to express themselves through music, movement and language by providing ample time and adequate opportunities.
6. Stimulate language development through listening and language activities.
7. Develop an awareness of the five senses
8. Encourage the child to become self sufficient.
9. Provide experiences with other children.
10. Encourage the child to develop a positive attitude toward school and learning.

\*It is the policy of the Ohio Hi-Point Career Center that educational activities, employment practices programs and services are offered without regard to race, color, national origin, gender, religion, disability or age.
